

SEEDER

III TURVO

13 AR | 15 AR | 17 AR

ONE OF THE GREAT
FORCES OF AGRICULTURE
IN BRAZIL AND LATIN AMERICA

PLANTADORA

TURVO

ADVANCED TECHNOLOGY FOR YOUR PROPERTY!

THE BEST RICE PLANTING YIELD AND IDEAL FOR YOUR PROPERTY!

TURVO hydraulic fertilizer planters were designed for direct and conventional rice sowing. With a rear-drive wheel, they avoid waste in finishing operations by maximizing the area utilization.

- Specially developed for sowing in floodplain soils;
- Monoblock chassis;
- Hydraulic 3-point lift;
- Wheels with flanged rims and special tires;
- Fertilizer distribution via a screw meter;
- Seed distribution via a steel helical rotor.

TECHNICAL SPECIFICATIONS

TURVO	13 AR	15 AR	17 AR
Approx. fertilizer capacity	560 kg	645 kg	730 kg
Approx. seed capacity	250 kg	280 kg	330 kg
Width between lines	170 mm	170 mm	170 mm
Number of lines	13	15	17
Useful width	2040 mm	2380 mm	2720 mm
Total width	2500 mm	2840 mm	3200 mm
Total height	1665 mm	1665 mm	1665 mm
Height to the walkway	950 mm	950 mm	950 mm
Tractor power	65 CV (4x)	75 CV (4x)	75 CV (4x)
Approximate total weight	1510 kg	1610 kg	1680 kg

Note: *Dimensions and weight vary depending on product configurations.

**Seed and fertilizer capacity may vary depending on particle size and/or specific weight.

Consisting of offset 15x15" double discs and optional cast iron compression. Ring system, standard item.

Seed distribution by means of a steel helical rotor.

OPTIONAL

Three-stage telescope controller, small seed box, depth controller ring..

WHEEL articulated with pressure regulation.

Racing with wheels behind the last row to make better use of the planted surface.

Wheel with pressure adjustment option using a spring and chamber.

PLANT SAFELY AND TO HARVEST RESULTS.
